Front-End Development: HTML5, CSS/SCSS, JavaScript, Git & GitHub, React.js, responsive web design

Adobe Creative Suite: Lightroom, Photoshop, Premiere Pro, Illustrator

Tools & Platforms: Microsoft Office Suite, Google Workspace, Google Analytics, Slack, Visual Studio Code

Content & Branding: Photography, social media design, content strategy, visual storytelling, digital marketing

Strengths: Communication, organization, strategic planning, time management, problem-solving, collaboration

PROJECTS (*Full case studies on portfolio*)

- **“Sable” Reading Website – Capstones Project:** Collaborated with a team to design an immersive and medieval themed reading platform with features like audio integration, community and chat pages, and personalized profiles. Conducted user research throughout development. Responsible for producing and organizing the platforms content.
- **“Nova” Connection-Based App Prototype – UX/UI Case Study:** Collaborated with a team to design a star-themed dating and social connection app. Conducted user research, developed wireframes, and created an interactive prototype in Figma. Features included hobby-based matching, friendship/relationship modes, and a community discovery page
- **Non-Profit Website Analysis – UX Audit & Redesign Proposal:** Conducted a full UX/UI evaluation of the Starr Wellness Collective website, analyzing accessibility, navigation, readability, mobile responsiveness, and visual hierarchy. Outlined usability issues and proposed solutions to solve issues.
