Strengths & Weaknesses

Strengths

Mission

- Clearly states the mission to empower teen, especially on homepage
- Uses impactful parent testimonials
- Program details are highlighted, making it easy for visitors to understand SWC's impact.

Layout

- Information is properly divided amongst different pages on navigation bar
- Information is broken down with subheadings which reduces content confusion
- The footer includes useful links
- Avoids clutter, which keeps the website focused.

Donation & Sponsorship

- The donation page clearly explains how contributions are used.
- Smooth payment process.
- Sponsors receive recognition and benefits

Course & Program

- Each program has a detailed description.
- Breakdown's course structure
- Pricing transparency.
- Clear Call To Action Button

Weaknesses

Lacks interactive features

- Social media links are not prominent
- Does not have engaging features
- Does not visually show what the courses have to offer.

Outdated Design

- The typography is basic
- Color palette is not incorporated enough
- Too much black on white text.
- The text on the Blog page is blurry and the paragraphs are not aligned well.

Links & Sections

- Certain parts of different pages lack sectioning.
- Lacks internal navigation for sections with lots of information.
- Some links do not function properly and lead to errors

Visual Issues

- There is a lot of negative space
- Logo is too small
- Does not have enough inviting visuals.
- Some visuals are not rendered or scale properly on mobile

Design & User Engagement Improvements

Mobile Display Issues

- Fix the “Meet” box on the desktop to appear the same on mobile.
- Using mobile preview mode, I would resize the text and images for mobile compatibility.
- Resize homepage logo

Content Organization & Navigation

- Organize pages with lots of content into sections. Ex; resources page.
- Enable drop-down menu for resources page by linking each sub-category to its section within the resources.
- Replace “Download The App” link
- Fix contact form errors.

Visuals & Layout

- Change font/color to contrast with backgrounds.
- Fix blog alignment and rendering.
- Improve visual appeal of the Donate Page with icons and images.
- Fix page spacing and layout issues by reducing margins and with columns/grids.
- Replace negative space with visuals
- Use dividers and different background colors.

Site Speed & Technical SEO

- Optimize images by using WebP format for faster load times.
- Reduce unnecessary scripts that can slow down the site.
- Make the site mobile-friendly to rank higher on Google.

Simplifying Content for SEO

- Use clear and keyword-rich Headings.
- Optimize Meta Titles & Descriptions: Use keyword-rich titles and descriptions for each page and blog.
- Add alt text to images to improve accessibility and SEO

Interactive Elements for Engagement & SEO

- Embed interactive elements like videos, reminders, and countdown timers.
- Use internal links to guide users to related pages
- Pop-ups to subscribe to emails

ENGAGEMENT RECOMMENDATIONS

- Make social media applications more prominent on the website so more teenagers interact with it.

- In one easy-to-navigate area, Provide parent FAQs, chat support options, course overviews, and safety information, and downloadable guides on course benefits.

- We can include a Donor Impact page to showcase how funds are used, such as helping specific programs or events. Include metrics, success stories, and before-and-after visuals.

- Include teen testimonials, not just parent ones.
- Include approved videos of teens talking about about their personal experience with the programs.

- Feature parent success stories in video format on the homepage.
- Use dynamics success metrics

- Provide donation tracking and a goal to reach
- Provide an option for one-time donations or recurring donations.

- On the dashboard, a progress tracker can be added for teens to track their involvement in programs, events, or challenges.
- On the dashboard, teens can unlock badges, streaks and achievements that can be displayed.

- Provide a gallery page so parents can see real-life examples of how it benefits their teens.

- Place the “Sponsorship Level” image on the Donor’s page, not just when you click “Donate”.
- On the desktop, fix rendering for the “Sponsorship Level” image so donor’s can engage with it better.
